

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

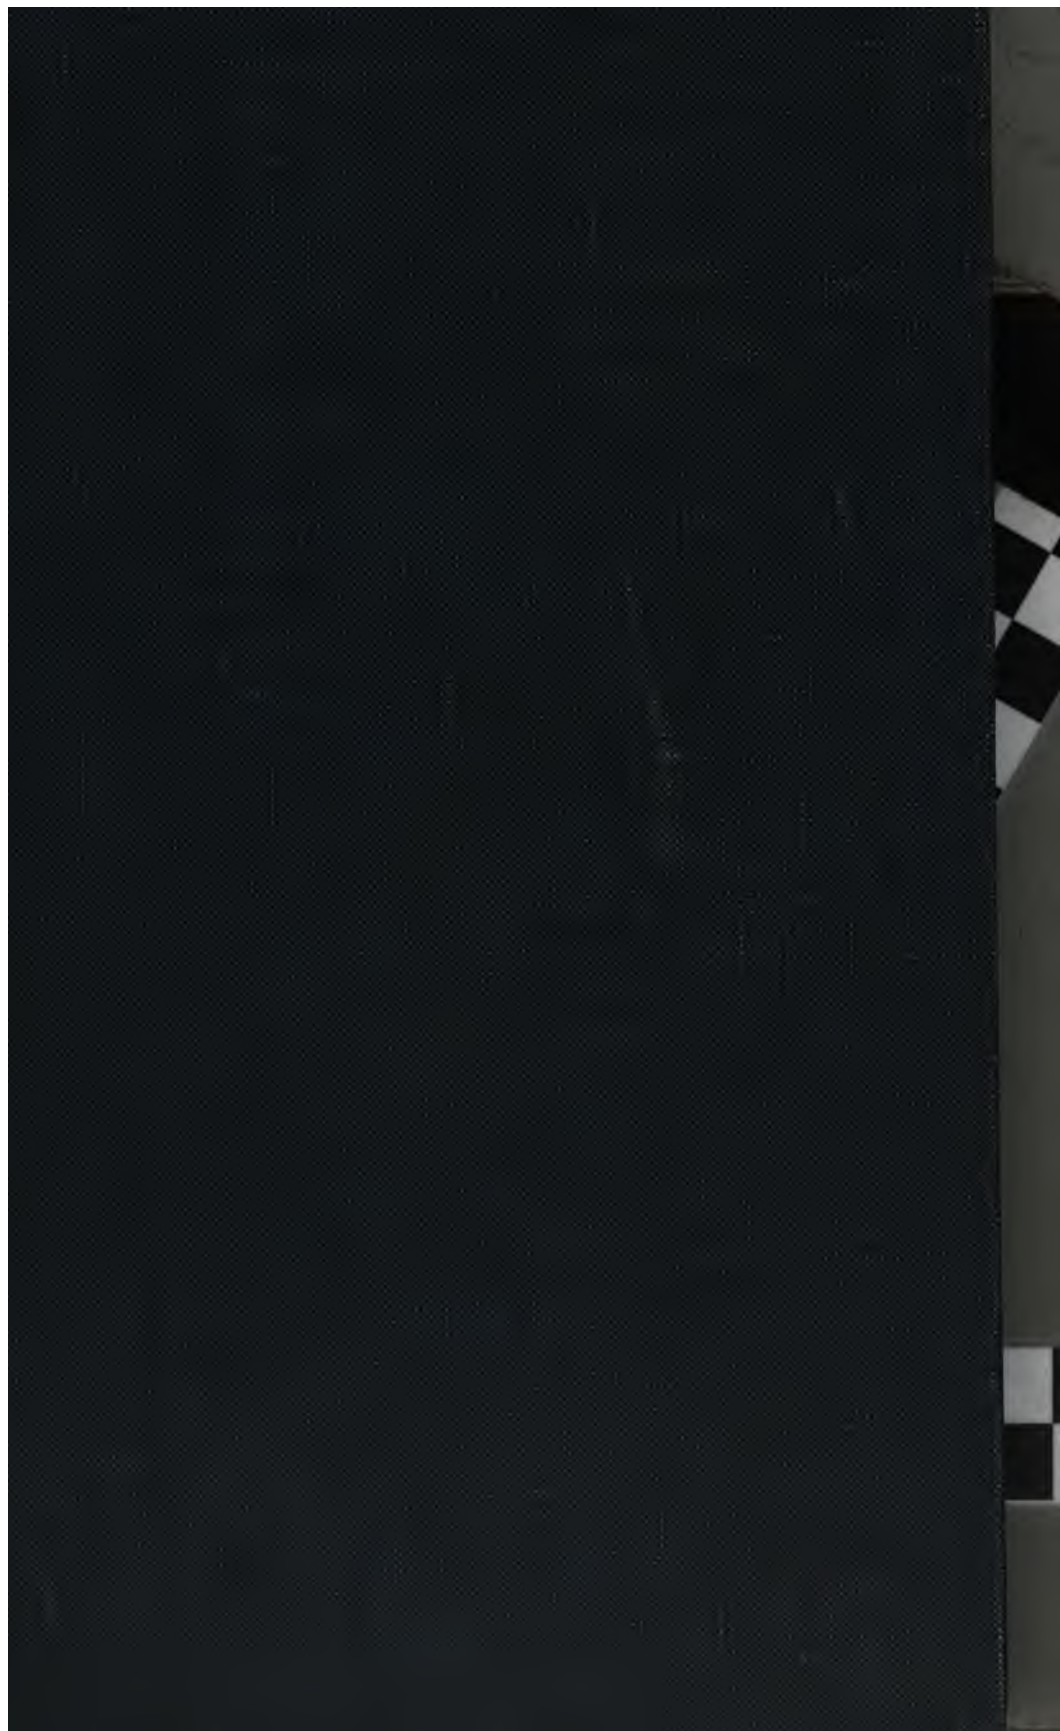

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

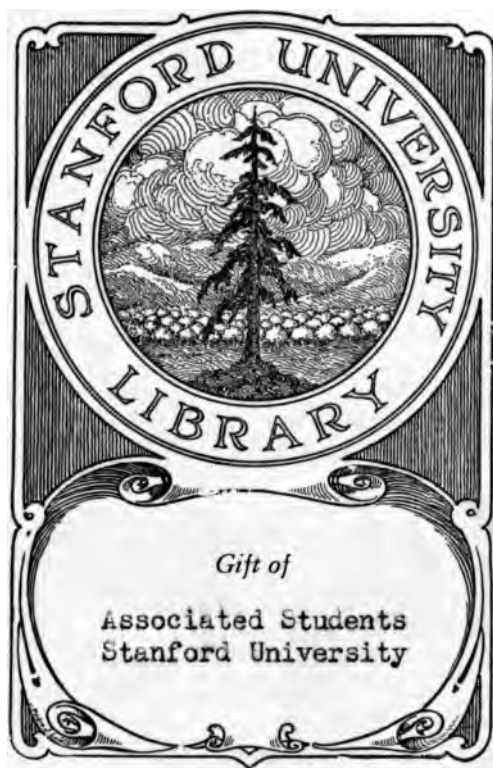

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## Gymnastic Dancing, Rhythmic Exercises for Gymnasium Classes

W. J. DAVISON

Boards, illustrated, \$1.00

The New Manual of Dancing Exercises, officially adopted by the Physical Directors' Society. A practical application to gymnasium work of the modern gospel of play—exercise with a zest in it. This means larger and more successful classes.

## Reaching the Boys of an Entire Community

Cloth, \$1.00

Sixteen chapters by experts who discuss both method and practice. A few of the subjects are: A United Campaign for the Boyhood of the Community; The Practical Application of the Principles of Adolescence; The Remedy for the Moral Lapse in the Boy; Group, Mass, School and Church Clubs; Fraternities; The Intellectual Life of the Leader of Boys; Perils and Compensations of Leaders of Boys.

## Great Events in the Life of Christ

JAMES MCCONAUGHY

Cloth, 75 cents; paper, 50 cents

"A helpful aid to the study of the Gospels. This is a text-book for men's classes and covers the ground in a course for twenty-five weeks of daily study. The lessons are brief, giving compact information and suggestive questions. Advice for supplementary reading is provided, but the desire is to focus the attention of the student on the Gospel text, the American Standard Revision being recommended."—*The Congregationalist and Christian World*.

## New Studies in Acts

E. I. BOSWORTH

Cloth, 75 cents; paper, 50 cents

A new course replacing "Studies in Acts and Epistles" and "Records and Letters of the Apostolic Age" by the same author. In this course, the study of the Epistles is almost entirely omitted.

## The Next Step

C. E. JEFFERSON

Boards, 35 cents

About a third of the matter condensed for tract use, 5 cents

For new converts: specially useful in following up the results of evangelistic campaigns.

## The Claims and Opportunities of the Christian Ministry

JOHN R. MOTT, Editor

Price per set of nine pamphlets, 50 cents

Authors are George Angier Gordon, William Frazer McDowell, Edward Increase Bosworth, Walter William Moore, Phillips Brooks, Woodrow Wilson, Arthur Stephen Hoyt, Charles Edward Jefferson. With each set is enclosed a copy of a letter from Theodore Roosevelt on "The Call of the Nation for Able Men to Lead the Forces of Christianity."

## English for Coming Americans

PETER ROBERTS

A rational system of teaching English to foreigners quickly by calling to mind the familiar incidents of their daily life and showing them how to label each idea with the right word.

Teachers' manual, cloth, 50c.; paper, 35c. Students' lesson leaves—four series, A, B, C, D, ten lessons each, per series, 5 cents. Series A is issued also in chart form, 2x3 feet, on heavy manila paper, price \$1.50. For series B and C cards are printed for practice in conversation. Complete set, per series, enough for an entire class, 50 cents. Send for special announcement.

Our complete catalog of Bible courses, General, Religious and Technical Association literature, Buttons, Pins and Watch Fobs embodying the Association Emblem, also General Supplies, sent on request.

THE BEST HOUR'S WORK A SECRETARY EVER DID

A general secretary who had long believed that it would be a *good thing*, that it was a *necessary thing*, that it was his business to put *Association Men* in the hands of each of his responsible men and got round to the job, worked at it one day. He started to get a club of twenty in the entire week, and came back to the building with twenty names which he had secured at an average of *one for each six minutes*. The next morning he decided to make it forty and ran it up to forty-two. He considered that the best and most fundamental work he did to build up a real Association.

# BOOKS FOR Y. M. C. A. MEN

## THE MASK OF CHRISTIAN SCIENCE

By FRANCIS EDWARD MARSTEN, D.D.

12mo, cloth, postpaid, \$1.00.

A history of the rise and progress of the cult, with an exhaustive study of the life of the head and "Mother" of the church. The book also dissects the sources of "Science and Health; with Key to the Scriptures." All the good points of Christian Science are discussed, together with its philosophy of life, its claims to scientific trustworthiness, its conflicts with the medical profession and the civil law, its source of power, and its apparent and possible dangers to social well-being. The mask is withdrawn, and it is shown what Christian Science is in actuality.

## THROUGH UGANDA TO MOUNT ELGON

By J. B. PURVIS

8vo, 362 pp., with map and 42 illustrations. Large, clear type, cloth bound, \$1.50.

SUBJECTS DESCRIBED AND ILLUSTRATED: THE COUNTRY—its history and government, geography, flora, fauna, etc. THE NATIVE INHABITANTS—their character, customs, dress, sports and secular education. MISSIONARY ENTERPRISE—past and present. Christian education and literature, number and character of converts; opportunities for Christian effort. INDUSTRIES—European enterprise; development of natural resources. Invaluable for those who wish to see things as they are in Africa.

## THE ATONEMENT

Rev. JAMES STALKER, D.D.

12mo, cloth, \$1.00 net.

A striking and scholarly presentation. A fit companion to Dr. Stalker's *Life of Christ and Life of St. Paul*.

Send for complete catalogues of Books and Leaflets on Bible Study, Missions, Biography, Christian Life and Work, Daily Devotional Readings, History, Evidence and Exposition.

## FATHER AND CHILD

By Mrs. JOHN CROSBY BROWN

16mo, cloth, 50 cents, postpaid.

A topical arrangement of Scripture passages, representing the varied appeals of the human heart in time of difficulty, distress or suffering, and the responses of God thereto. It is full of comfort and strength and will ease the aching heart. Appeals and responses alternate.

## THE CLOISTER BOOK:

For Shut-In Worshipers and Pastorless Congregations.

By DAVID JAMES BURRELL, D.D., LL.D.

12mo, 320 pp., cloth, postpaid, \$1.00.

Contains a complete Order of Service for twenty-six Sabbaths, so arranged that those who are deprived of sanctuary privileges may have appropriate prayers, Scripture lessons, hymns and a sermon for each Sabbath. It is designed for the use of the sick or otherwise disabled, or those removed from opportunities of worship, to enable them, in their homes, to unite in spirit in the fellowship of the House of God. Also useful in conducting public worship, the Order of Service being so arranged that any one can follow it.

## THE ISLANDS OF THE PACIFIC

By JAMES M. ALEXANDER

8vo, 370 pp., many illustrations and maps. Cloth, postpaid, \$1.00.

"This is the only full account of the Christian Missionary work among the Pacific Islands, where have occurred some of the mightiest triumphs of the Gospel."—*Watchman*.

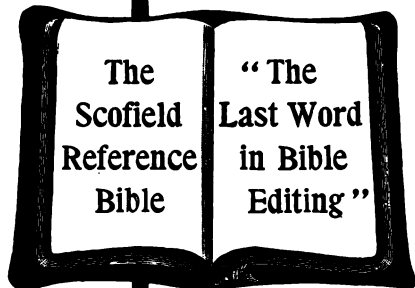

"It shows how rapidly, under the care of missionaries, the island races developed industrial activities, established schools, built churches, and prepared themselves for the influx of travel and trade."—*Interior*.

## STATEMENT REGARDING THE WORK OF THE INTERNATIONAL COMMITTEE

### GENERAL ADMINISTRATION

1. **COMMITTEE MEMBERSHIP.** During the year new members have been added to the Committee, in accordance with the authority of the Washington Convention, as follows: W. H. Gay, Grand Rapids, Mich.; John Penman, Paris, Ont.; Anson Phelps Stokes, Jr., New Haven, Conn.; Arthur Letts, Los Angeles, Cal.; E. M. McBrier, Buffalo, N. Y.; and George W. Perkins, New York. The following have been elected as members of the Advisory Committee: Wm. Whyte, Winnipeg, Man.; D. A. Budge, Montreal, Que.; Robt. A. Falconer, Toronto, Ont.; Bayard H. Christy, Pittsburgh, Pa.; J. L. Kemmerer, New York and S. B. Thorne, Minersville, Pa. A complete list of the Committeemen, Advisory members and members of the Board of Trustees is shown on another page.

2. **EXECUTIVE COMMITTEE.** This Committee, composed of the Chairman, the two Vice-Chairmen and the Treasurer, has general charge of the work during the intervals between the meetings of the International Committee, and acting for the whole Committee has maintained a general relation to all departments of the work carried on in the name of the International Committee. Richard C. Morse has continued as General Secretary with Clarence J. Hicks and John R. Mott as Associates for the Home and Foreign fields respectively.

3. **SUB-COMMITTEES.** The departmental organization of the Committee's work on the Home field has continued on the plan followed for a number of years past, each department with its own sub-committee in close relation to the details of its work. These sub-committees have reported in detail to the regular monthly meetings of the International Committee.

4. **CANADIAN SECTION.** The members of the International Committee resident in Canada, constituting the Canadian Section, have continued their helpful relation to the work throughout the Dominion. Headquarters are maintained in Montreal, and Mr. W. M. Birks continues as Chairman. Mr. C. K. Calhoun, for several years Secretary of the Central Department of the Montreal Association, has recently begun work as Field Secretary of the International Committee for Canada, reporting directly to the Canadian Section. The Section also maintains a close relation to the work of the other International Secretaries operating in the Canadian Territory and the members serve on several sub-committees related to the work on the entire North American field. In January, 1909, a two-day Conference attended by the Canadian Section Committeemen, the International Secretaries working in Canada and the general officers of the Committee, was held in Toronto when the interests of the work throughout the Dominion were thoroughly considered.

5. **WORLD'S COMMITTEE.** Cephas Brainerd, New York, James Stokes, New York, H. B. Ames, Montreal, Que. and Richard C. Morse, New York have been re-elected as the North American members of the World's Committee. John R. Mott, New York, has during the year been elected an advisory member of the Committee. Vice-Chairman Marling and Secre-

taries Hicks and Mott attended the plenary meeting of the Committee at Geneva, Switzerland, in August, 1908. The two first mentioned represented members from North America who were unable to attend. This Committee has co-operated during the year with the Industrial Department of the International Committee in work for emigrants leaving European ports for the United States and Canada. Special Secretaries have been located at Naples, Genoa and at Liverpool. At the latter port, the Liverpool Association and the English National Council have carried the chief responsibility.

6. **INTERBROTHERHOOD CONFERENCE.** Ralph W. Harbison, Pittsburgh, Pa., and Secretaries C. J. Hicks and F. B. Smith represented the International Committee, by special invitation in participation with officers of the Church Brotherhoods and the Layman's Missionary Movement in an all-day Conference at Pittsburgh, Pa., in February, 1909, for the purpose of promoting a closer union between the different men's movements. Among the questions considered at this meeting was that of a uniform date for the annual Week of Prayer for men, and the Associations were asked to join with these other organizations in a date during the early part of December. As the Association date has for many years been determined by the Conventions, this matter has been referred to the World's Committee and to the next International Convention. The meeting also proposed the holding of a Men's Congress for World Brotherhood in the spring of 1910 under the direction of a Committee of twenty-seven, nine to be appointed from the Church Brotherhoods, nine from the Layman's Missionary Movement and nine from the International Committee. The Committee appointed as its representatives the following: W. D. Murray, Jas. G. Cannon, E. B. Sturges, S. W. Woodward, Wm. Jay Schieffelin, John R. Mott, C. J. Hicks, F. B. Smith and L. Wilbur Messer. It is proposed that a similar conference of representatives of the three movements which participated in the Pittsburgh Conference be held hereafter annually.

7. **ANNUAL CONFERENCE.** The annual Conference of the International Committee's members and Secretaries for 1908 was held in connection with the formal opening of the International Committee's new building in New York City, May 28th-June 4th. The exercises in connection with the opening of the building did not permit of as much time as heretofore for presentation of reports and discussion of the work, but the attendance both of Committeemen and Secretaries was much larger than ever before. The Conference for 1909 will be held at the usual time lasting over Labor Day in September.

8. **WOMEN'S AUXILIARY.** Financial assistance along the usual lines has been continued in both the home and foreign work, besides special gifts, notably the help rendered in the furnishing of the extension to the Brooklyn Naval Branch and the new Norfolk Naval building, both of which have been dedicated this year. The former was the gift of the Auxiliary's first Vice-President, who is also the donor of the gymnasium which has just been added to the Fort William McKinley, P. I. Army Association building. The Norfolk Branch of the Auxiliary has also rendered a valuable service in securing a considerable amount toward the furnishing of the new Naval Branch building there. In the death of Mrs. E. A. McAlpin, which occurred in the early part of the year, the men of the Army and Navy have

lost a valuable friend, one who was devoted to their interests and who promoted their welfare in every possible way. Mrs. McAlpin had been President of the Auxiliary since its organization in 1897, and rendered a service of inestimable value. In November, Mrs. J. E. L. Davis, who has been a member almost from the beginning of the work of the Auxiliary, accepted the office of President. The other officers are: Mrs. Russell Sage, First Vice-President, Miss Helen Miller Gould, Second Vice-President, Miss Caroline B. Chapman, Third Vice-President; Mrs. Charles F. Darlington, Secretary-Treasurer.

9. **BOARD OF TRUSTEES.** The regular annual meeting of the Trustees was held January 19, 1909. The total amount of endowment funds on hand for all purposes, as shown by the report of Jas. G. Cannon, Treasurer, is \$949,476.64, of which amount \$945,636.15 is invested in interest bearing securities. This report has been properly audited and certified. The income for the year from the various funds in the hands of the Treasurer turned over to the Committee for its regular budget work amounts to \$30,886.97 as shown elsewhere in the statement of the Treasurer of the International Committee.

10. **ANNUAL DINNER.** The usual annual dinner of the Committee was held at the Waldorf-Astoria Hotel in New York City on November 12, 1908, and was attended by more than four hundred friends and contributors from New York as well as from distant points, making it the largest gathering of this kind yet held.

11. **SUMMER CONFERENCES.** In addition to the eight Student Conferences, Summer Institutes for professional training of employed officers were held last summer at Lake Geneva, Wis.; Hot Springs, Ark.; Estes Park, Colo.; Lake Couchiching, Ont. and Silver Bay, N. Y. with approximately eight hundred students enrolled. A large part of these were Secretaries and other employed officers who have been in Association work for several years, while many were assistants desiring further training, with a considerable number of young men seeking to fit themselves to enter the work. As heretofore, the responsibility for the entire management and leadership of the Student Conferences has rested with the International Committee, and in all of these other Conferences and Institutes the Committee has largely participated through the service of its Secretaries as instructors and leaders of departmental Institutes.

## II. HOME WORK.

1. **BUSINESS DEPARTMENT.** This Department continues to have relation to the general business affairs of the Committee, including the administration of its finances with regard to both receipts and expenditures. The work of the Department is under the direction of the Executive and Finance Committees. F. B. Shipp continues as the Executive Secretary of the Department, and as such has acted as the special representative of the Treasurer in handling the Committee's funds. In addition to the foregoing duties, Mr. Shipp has during the past year been assigned by the Executive Committee to special co-operation with Mr. Hicks in matters connected with the general administration of the work on the Home field. On March 1, 1909 Mr. J. F. McTyier, formerly one of the Secretaries on

the Canal Zone, was added to the staff of Business Department Secretaries, and gives a considerable portion of his time to matters connected with the Financial offices.

(a) *Finances.* The total expenditures of the Committee for its regular work for the year ending December 31, 1908, were \$433,695.99; of this amount \$254,838.55 was expended on the Home Field and \$178,857.44 on the Foreign Field. This exceeds the total expenditures for 1907 by \$43,296.02, and although the year was one of financial stringency throughout the country, the Committee was enabled, as heretofore, through the loyal co-operation of its many friends, to close the year with all bills paid. In a larger measure than ever before, the different departments have assumed responsibility for the securing of funds, and the Department has continued to have the valuable co-operation of Thomas K. Cree in financial work. The Foreign Department has continued to carry the chief responsibility for its budget. Charles E. Lyman acts as the Committee's Cashier, and the auditing of bills is attended to by George C. Cameron.

(b) *General Office Work.* P. F. Jerome acts as Secretary for general office work, including purchasing, employment of stenographers and clerks and the ordering of printed matter, except for the Publication Department. He has also during the year come into a responsible relation to the details of the management of the Committee's headquarters building.

(c) *Headquarters Building.* The increased office room and the improved facilities for administrative work, which the new building of the Committee provides, have greatly added to the efficiency and usefulness to the Associations of the International work. The entire expense to the Committee for building maintenance is about the same as the rental charges in the former crowded inadequate temporary quarters. It is hoped that before long special endowment can be secured to cover the cost of maintaining the building. A. E. Pettit continues as Superintendent of the building.

(d) *Historical Library.* J. T. Bowne still maintains a general oversight of the library work, giving to it such attention as is necessary from time to time. Frank E. Burgess continues in direct charge devoting his entire time to the library, which has been improved during the year by the addition of much new matter and by a more thorough classification of books and pamphlets already on hand.

2. **PUBLICATION DEPARTMENT.** Henry D. Dickson assumed his duties as senior secretary of this department January 18th, succeeding E. M. Willis whose responsibilities in connection with the Silver Bay interests made his resignation necessary. Mr. Dickson has had an exceptional training for this position as Secretary at Central Department, Buffalo, and for the past eleven years at 23d Street Branch, New York City. He has acquired a familiarity with the needs of the local Association that will enable him to render great service to the brotherhood in his new office. The other Secretaries in the Department are G. L. Leonard, H. S. Ninde, R. J. Cole, A. T. Magagnos. D. S. Jillson, formerly of the Pennsylvania State Committee, has been added to the secretarial staff. The volume of business during the past year was substantially the same as during 1907 with the exception that "Association Men" showed a decided increase in receipts from advertising and subscriptions. The advertising patronage has been more

extended and stable, and the financial showing has been more satisfactory than heretofore. Mr. Willis still retains a relation to the Publication Department as the Business Manager of "Association Men" and the improved financial showing is largely due to his handling of the business interests of the paper.

3. "ASSOCIATION MEN." "Association Men" has recorded the most favorable year of its service to the brotherhood with a larger and increasing subscription list. The extension of its circulation has been greatest among the rank and file of the Christian men who make the organization effective. Many thousands have been induced to follow the notes of daily Bible Study by Dr. Bull. The circulation of the annual review number with its several editions reached more than 72,000 copies and were used in building campaigns to a large effect. In Great Britain and in other foreign countries the circulation is reported to have been a great help to the leaders of the movement. Foreign secretaries write that its monthly visit has brought inspiration and kept them in touch with the thought and phase of the movement. The Secretaries at isolated points say it has been a great help to them in supplying ideas and approved methods of service. Clergymen have stated that the stories of Christian service reported in it have read like the acts of the Apostles.

4. FINANCE: BUILDING AND MAINTENANCE FUNDS. Unprecedented activity in Building Campaigns has characterized the past year. During that time C. S. Ward has conducted campaigns which have produced more than \$1,400,000. Among the most important of these were Nashville, \$204,000 for a new building; New Haven, \$180,000 for a dangerous debt; Montreal, \$300,000 for extension in four parts of the city, and the completion of a fund of \$100,000 for the Railroad Department in Richmond, following a series of campaigns in that city which began with \$227,000 for a city Association building two years ago. The total amount which has been raised in campaigns conducted by Mr. Ward in the four years which he has devoted to this work is \$6,500,000. This money has been given by 140,000 people and has been solicited by 7,500 committee workers. The committees have been made up of 100 to 300 of the representative men of each city who have made of each campaign "a great civic movement." As a result men in large numbers have been led into Christian service; having learned the lesson of co-operation they have joined in efforts for civic improvements, and it has led to other large funds being raised for various civic, religious, and educational purposes.

5. THE FIELD DEPARTMENT. This Department is the special representative of the International Committee in the work of pioneering, organizing and strengthening State and Provincial supervision, and it is also the representative of the Committee in its general relation to the City group of Associations, with a special responsibility for securing effective local leadership, symmetrical development and adequate extension into unoccupied cities. Bruno Hobbs is responsible for the general administration of the Department and with him are associated C. K. Ober, C. L. Gates and W. M. Parsons, with headquarters respectively at Atlanta, Kansas City and Minneapolis. As stated on a preceding page, C. K. Calhoun has during the year become Field Secretary for Canada, reporting direct to the Canadian Section, but working in close co-operation with the other Field

Secretaries. Comprehensive plans have been laid for a more thorough covering by the Department of the entire North American field as soon as needed additional men and the money for their support, can be secured. This Department continues its relation to the work among Indian young men which is being carried on by Stephen Jones.

6. COUNTY WORK DEPARTMENT. John R. Boardman continues as Senior Secretary of this Department and has associated with him A. E. Roberts in the traveling work. In March 1909 Henry Israel was added to the County Work staff to give special attention to office administration. During most of the past year William G. Mason has been doing evangelistic work in the county field under the direction of the International Committee. Robert Weidensall retains an honorary relation to the Department. Recent State conventions in Maine, Colorado and Nebraska have authorized the employment of Secretaries to give their entire time to county work. The organization of 11 counties during the year brings the total to 48. The force of employed Secretaries now numbers 68 with 12 temporary vacancies. Two phases of the work have shown marked advance. Over 3,500 young men and older boys were engaged in organized athletic and recreative leagues. Nearly 1,000 men and boys have been won to the Christian life, a large majority uniting with the church. The most significant occurrence of the year was the recognition of the work of the Department received in the report of the Government Commission on country life and in the message of President Roosevelt in transmitting the report to Congress. By special invitation Mr. Boardman accompanied the Commission for two weeks on its tour of investigation.

7. RAILROAD DEPARTMENT. Although rigid economy and retrenchment have been the chief characteristics of the railroads of the country during the past twelve months, nevertheless the monthly appropriations made by nearly 70 railroad corporations toward the maintenance of railroad Associations have not been curtailed. On the contrary, in a number of instances they have been increased. In three instances where railroads were in the hands of receivers, appropriations have been continued upon the recommendation of receivers, by the authority of the court, and in two instances additional appropriations were secured. E. L. Hamilton, H. O. Williams, John F. Moore, J. M. Dudley and W. H. Day have continued in the territories occupied by them respectively, as reported a year ago, and A. G. Knebel has continued to specialize on religious work among railroad men. On July 15th, Mr. F. M. M. Richardson, for some time past Educational Director of the Industrial Association at Wilmerding, Pa., will begin work with the Committee as special Secretary for educational work on the Gould Lines, succeeding R. C. Morse, Jr., resigned to enter railway service.

The new building of the Long Island Railroad Department, the gift of Mrs. Russell Sage, which cost \$100,000, was formally opened in November. Eleven new buildings have been secured during the year, valued at \$401,500.

With the financial aid of the Industrial Department, work among the men in the construction camp was successfully continued at Taft, Mont., and was recently undertaken on the western end of the Grand Trunk Pacific. The remarkable beginning made in Railroad Association work on the Canadian Pacific Railway at three important division points, where now substantial modern Association buildings have been provided by the railroad company, is being extended to other points. The 13th International

Railroad Conference held at St. Louis, May 27th to 30th was in many particulars the strongest and best gathering of the kind ever held. It was attended by over 1,400 delegates and by a larger number of representative railroad officials than any previous conference.

8. **INDUSTRIAL DEPARTMENT.** Charles R. Townson continues as the Executive Secretary of the Industrial Department, having associated with him Dr. Peter Roberts, G. D. McDill, John Sumner, F. H. Rindge, Jr., Ira D. Shaw and Norman C. Schlichter, the latter succeeding H. R. Bernhardt, resigned. The two-fold aim of the Industrial Department during the past year has been: (a) to secure larger interest in industrial workers on the part of local, state and international Association agencies; (b) to establish Associations in industrial plants and communities. To do this two lines of work have been conducted: (a) extension; (b) experimentation for the discovery of methods. J. A. Baldwin continues in charge of the Southern Industrial Institute. John Sumner has been assigned to aid temporarily in establishing emigration work at the port of Liverpool. J. R. Thompson resigned in January, 1909, on account of ill health, after having faithfully served the Committee for several years.

Among the activities of the year have been: (a) the continued experimentation at the Kensington Branch, Philadelphia; (b) growth of interest by industrial workers and an increase in membership; (c) equipment and co-operative support for Associations in four cotton mills, three lumber camps, four construction camps, and at a number of manufacturing points; (d) the establishment of Association work for emigrants at the ports of Naples, Genoa and Liverpool in co-operation with the World's Committee and the National Councils of Italy and Great Britain; (e) a marked increase in efforts on behalf of non-English speaking men in Association communities, and the production of a simple course of teaching English entitled "English for Coming Americans," by Dr. Peter Roberts.

9. **STUDENT DEPARTMENT.** Owing to an increasing volume of work in both Student and Foreign Departments, H. P. Andersen, who, for some years has given a large part of his time to the executive management of the student work, has been transferred to the Foreign Department, and his place in the Student Department has been assigned to E. C. Carter, formerly General Secretary at Harvard and afterwards National Secretary for India. Mr. Mott has spent most of the year in Europe, where he has been enabled to render exceptional service to the student movements of the various countries. The following men have served as traveling secretaries in their respective fields: F. M. Harris, the East; A. J. Elliott, the West; T. H. Billings, Canada; W. D. Weatherford and W. E. Willis, the South. Gilbert A. Beaver has been engaged in special work for this department and E. C. Mercer, who is closely affiliated though not officially connected with the Student Department, has visited a large number of institutions, especially in the West, in evangelistic effort. John A. Addison has continued to serve as office secretary. Thornton B. Penfield has also continued as Secretary for theological institutions and David R. Porter as Secretary for preparatory schools.

The Bible Study work has been supervised by Clayton S. Cooper and Neil McMillan, Jr. with Ross A. Hadley as office secretary. A very important and effective Bible Conference held in Columbus, Ohio, in October

brought together 1,022 delegates of whom 124 were college presidents and professors and 90 were editors and college pastors. Soon after the close of this conference Mr. Cooper left for a tour of India, China and Japan where he very successfully imparted the spirit and plans that have resulted in such interest among students of North America. Emphasis in this Bible Study propaganda has chiefly been placed upon the training of leaders and the formation of the daily Bible Study habit.

The Student Volunteer Movement has continued to develop missionary interest among students. During the past year 326 student volunteers have sailed for mission lands, the total of sailed volunteers now being 3,951. Gratifying emphasis is noticed on the distinctly spiritual phases of the student work. Industrial and social service has enlisted interest in many men formerly not actively interested in Christian activity. A number of institutions such as Yale, Williams, University of Pennsylvania, the colleges in Ohio and many other parts of the country have gone far in constructing and carrying out definite plans for such practical service. Eight student summer and winter conferences, (one held for the first time in Cascade, Colo.) brought together 2,785 delegates and leaders. A score of institutes on the work of the ministry have been held at important student centers. A study of the subject of the ministry entitled, "The Future Leadership of the Church," together with a series of pamphlets has been published under the direction of the Student Department.

10. ARMY AND NAVY DEPARTMENT. William B. Millar and Fred A. McCarl, the latter with headquarters in San Francisco, have continued as Secretaries of the Department, with Edgar MacNaughten and William J. Lamkie as special secretaries in charge respectively of the religious and the educational work. On February first John S. Tichenor severed his connection with the department to become traveling secretary of the Associations in South Africa and beginning July 1st Mr. MacNaughten succeeded him in the regular work of the department.

The world tour of the Atlantic Fleet has brought the Association to the attention of the enlisted men with stronger emphasis than ever before; at nearly every port touched special arrangements were made to care for the sailors, Australia, China and Japan, as well as South America joining hands with the home Associations in welcoming the men and doing all possible for their comfort and entertainment, the result being that the excellent behavior of the men was a subject of comment in nearly all the cities visited. The new Naval Branch building at Norfolk, Va., which with site cost \$300,000 the gift of Mr. John D. Rockefeller, was opened in January, although the formal dedication did not take place until March 17th. The completion of this building just in time to receive the men of the Atlantic Fleet was most fortunate, and the sailors showed their appreciation by thronging it during the entire time of their stay in Norfolk. Although the new \$350,000 extension to the Brooklyn Naval Branch was not completed until later the bed-rooms were ready when the fleet returned and it became necessary to use all of these in both the old and the new buildings, this fact showing the wisdom of the larger provision. The crews of several of the ships of the navy have contributed toward the furnishing funds of both the Brooklyn and the Norfolk buildings, the *U. S. S. Virginia* leading with a gift of \$1,000 for the latter building. This ship also gave their homeward bound pennant and two flags—costing over \$800 to the Norfolk Branch.

The new gymnasium at Fort William McKinley, P. I. is also finished. In a ten days' canvass there in January nearly \$4,000 was secured, almost entirely among the enlisted men, for the furnishing of this building, and a physical director has been sent from the States to take charge of the work in it. In the Philippines the work has been pushed with renewed vigor and has received many strong endorsements from officers and men. As a result of the work conducted for the men of the fleet during their stay at San Francisco a permanent naval branch was organized there, making the sixth in the chain of naval branches in this country. Although the Atlantic Fleet was away for so large a portion of the year the figures from the naval branches in this country show that a very extensive work was done even in its absence, and since the return the different branches have made new records in many departments.

A correspondence Bible course has been inaugurated among the enlisted men, and the scope of the Bible and Prayer League has been enlarged to include the men in both arms of the service. The educational work has made marked progress and plans for further extension are being consummated. Twenty-eight secretaries of the Department attended the conference and institute at Silver Bay in August.

11. **COLORED MEN'S DEPARTMENT.** This department now has 136 Associations, 96 in educational institutions and 40 in cities, with an aggregate membership exceeding 11,000 young men. Notwithstanding the financial stringency of the past year two new city Associations and six new student Associations were added to the list, a new building was dedicated at New Orleans, and the cornerstone of the \$100,000.00 building for Washington D. C., was laid by President Roosevelt. The year was specially characterized by the splendid advances made in night-school work and by the increased attendance upon religious meetings. Ten colored student Associations sent delegates to the first International Student Bible Conference at Columbus, Ohio. Tuskegee Institute Association employed the first student general secretary in this department and enrolled more than 700 young men in voluntary Bible Study groups. W. A. Hunton, J. E. Moorland and John B. Watson are the department secretaries.

12. **PANAMA.** Association work has passed the experimental stage in conducting activities in the four government club houses for the white men employed on the Panama Canal. The Canal Commission recognizes it as a factor in digging the Canal and the authorization of Congress has been secured for the construction of four additional buildings. The order has been approved for the construction at once of the first of these additional buildings at Gatun. Mr. A. Bruce Minear has continued as the Committee's representative in general charge of this work on the Canal Zone, and has associated with him nine secretaries. Much time and attention is given to co-operation with other agencies at work for American residents of Panama in promoting united effort in church, Sunday school, and social service work. During the past year Boys' Departments have been organized in each of the four Associations. With the co-operation of the Army and Navy Departments funds are being secured to begin work among the enlisted men at Camp Elliott where some 600 marines are stationed.

13. **RELIGIOUS WORK DEPARTMENT.** A significant feature of the year's work was the Conference on Federation of Men's Work held in New York

in January, attended by 66 business and professional men and carefully chosen employed officers. The discovering and placing of men in the religious work directorship continues to require much attention. The Summer Training Institute in religious work methods was continued at Silver Bay. A new course for religious work directors was inaugurated at Lake Geneva, and an advanced course for experienced secretaries and religious work directors was established at Silver Bay.

The work of Fred B. Smith has in the main followed the lines of former years. The past year, however, has been made significant by his extensive tour in South Africa where he visited 17 Associations, gave 61 addresses and conducted 34 conferences. Special attention was given to preparing the way for more thorough supervision through a committee representing the various colonies. Funds for two years' work were raised and a secretary from North America, J. S. Tichenor, is on the field. R. A. Waite, Jr. has followed the plan adopted last year of giving his attention almost wholly to work in behalf of older boys. H. W. Arnold has devoted the year to religious work conferences, evangelistic meetings and special conferences in the interest of federation of Christian laymen. W. J. Southam spent a few months touring the Canadian field after his return from leave-of-absence in England. He resigned in December to return to the pastorate. C. R. Drum entered the service of the department February 15th after a long and successful experience as a layworker in the Syracuse Association. He will give most of his time to the Canadian Associations promoting all types of religious effort. J. E. Lathrop began work as office secretary on January 1st, and on May 1st the department took a decided advance step when Rev. Clarence A. Barbour, D.D. was added to its list of secretaries.

14. EDUCATIONAL DEPARTMENT. The past year has witnessed progress in the educational work of the Associations, notwithstanding the generally unfavorable business conditions which resulted in throwing a large number of men and boys out of employment. The total enrollment in educational classes shows an increase of nearly 3,000 over the preceding year. Fifteen years have passed since the International Committee established its educational department for the promotion and supervision of this work among the Associations of North America, and it is interesting to note the following, among other items of advance, in educational work, during this period: (a) An increase of from 15,000 to 46,789 in the enrollment of employed men and boys in night classes. (b) An increase from 500 to 2,100 in the number of paid teachers. (c) An increase from \$60,000 to \$565,840 in the total expenses for educational work. (d) An increase in students' tuition fees from a merely nominal amount to \$353,242. George B. Hodge, who was the first Educational Secretary of the International Committee, continues as the head of the department, and has associated with him Robert T. Hill. W. J. Lamkie is related to the Army and Navy Department with special reference to educational work among enlisted men, and, as noted in the statement of the Railroad Department, F. M. M. Richardson has recently been secured as a special Educational Secretary for work with the Railroad Associations on the Gould lines. Among the special developments of the year, is the large increase in the number of Associations teaching English to foreigners, nearly all of these using the course by Dr. Peter Roberts of the Industrial Department,

entitled "English for Coming Americans." Through the kindness of a firm friend of Association educational work, Mr. Hodge was privileged to spend several weeks in Europe, early in 1909, making a study of the work being done for employed men and boys in the trade and technical schools.

15. **PHYSICAL DEPARTMENT.** This department under the continued leadership of Dr. George J. Fisher has promoted the physical work of the Associations by defining and standardizing it, co-ordinating it with other departments of the work and by bringing it to a higher grade of efficiency.

The problem of adapting physical work to the needs of industrial workers, to meet conditions in rural communities, among colored men, among immigrants, in the army and navy and in foreign lands, has received special attention during the year and marked progress has been made. These new departments of work have greatly modified the character of the physical work and in fact demanded a wider ministry including not only the more restricted method of prescribing scientific muscular exercise, but special emphasis upon the teaching of personal hygiene and such forms of effort as may better be classified as physical welfare work.

The Social Service Movement in the Association has so greatly advanced and the physical department has had so large a part in it that the Associations have become potent factors in promoting social play, in the development of public playgrounds, in educating the community with reference to the prevention of disease and in co-operation with schools, churches and colleges by furnishing trained volunteers to conduct the physical work. The Sunday School Athletic League which is fast becoming a national movement is the direct product of Association suggestion. First aid to the injured and the teaching of swimming to the boys and young men of the community has been done on a comprehensive scale, thus introducing the more altruistic types of service, in which the members are enlisted in the actual work of instruction. Increasingly the physical department is enabled to promote volunteer social service by its wider interpretation of physical training. The Association is having a larger part from year to year in promoting sane and clean athletics.

This year a unique contribution of men has been made to the foreign work, some of our most efficient physical directors having been sent to foreign lands where there is a demand for the American type of physical training. The lesson of physical righteousness is being taught in lands where the cultivation of bodily vigor has not been a part of the native religious life and such teaching will revolutionize religious thought and education and is already proving a powerful factor in changing the lives of the young men in the Orient.

16. **BOYS' WORK DEPARTMENT.** The work with boys is not confined to any one department, but in an increasing manner, each considers that it has an obligation for boys as well as for men. The Boys' Work Department, while having special responsibilities assumed by no other department also seeks to correlate the boys' work which is inextricably interwoven with practically all departments.

The general administration has continued to rest upon Edgar M. Robinson. Particular attention has been given to the Western field by F. A. Crosby and to the Canadian field by F. H. T. Ritchie. Under the joint auspices of the Student and Boys' Work Departments, David R. Porter has addressed himself to the work for nearly half a million boys in public and

private secondary schools. R. A. Waite, Jr. of the Religious Work Department is giving most of his time to Religious Work with boys and Mr. Albert E. Roberts of the County Work Department and Robert T. Hill of the Educational Department give attention to Boys' work in their respective fields. Over two hundred men bear the title of Boys' Work Secretaries and several hundred other men are giving considerable attention to the development of this work in various capacities. Centers of training for leaders have been maintained at Lake George, Geneva and Couchiching, and there is a marked tendency to change the State camps from summer recreation to definite training of leaders for Christian service.

The conviction that it is the business of the Boys' Work Department to build up boys rather than departments or organizations, is changing the character of the work in many places, and while the work in the buildings is better than formerly, more and more time is given to co-operation with other agencies at work with boys. The work with boys at large seems not only to keep pace with the general growth of the movement, but in some ways is growing even more rapidly.

17. SECRETARIAL DEPARTMENT. Much as the Associations need money and buildings their greatest need is men of vision, administrative ability and spiritual power for positions of leadership. The Secretarial Department tries to supply this need by discovering and securing such men. During 1908, 892 were interviewed or corresponded with, including 380 employed officers, only 387 of whom were accepted by the Associations or supervisory committees to which they were suggested or recommended, so that in numbers the supply continues to exceed the demand. Two hundred and sixty-one vacant positions were filled by the help of International Secretaries, 91 of which were for general secretaries, 55 for assistants, 63 for physical directors, 8 for educational directors, 7 for religious work directors, 23 for boys' work directors, and 14 for state and county secretaries. In response to 239 other requests for men we were unable to suggest any that were acceptable. From the Association training schools in Springfield, Mass., and Chicago, Ill., 54 men became secretaries, assistants and physical directors last year and there are 175 students now in these schools, 56 of whom will soon graduate. The various summer training schools and institutes were attended by more than 800 men and a larger enrollment of students is expected for 1909. These schools are doing much to increase the efficiency of the Associations' employed officers.

### THE WORK IN FOREIGN LANDS.

The number of foreign secretaries on the field reached eighty-two during the year, distributed as follows: Argentina, three; Brazil, five; Ceylon, one; China, twenty-six; Cuba, two; Hongkong, three; India, eighteen; Japan, seven; Korea, four; Levant, one; Mexico, eight; Philippines, two; Uruguay, one; and one for South America at large. This is a net gain of ten for the year. Four additional secretaries, J. R. Mott, H. P. Andersen, E. T. Colton and W. E. Holdren are engaged in the home administration of the foreign work, while affiliated with it is the special effort on the continent of Europe aided by Mr. James Stokes, representing an expenditure in 1908 of

\$15,041.31. The budget of the Foreign Department, proper, in 1908, amounted to \$178,882.97.

The year has been marked by the projection of the movement into new centers and countries and among hitherto unreached groups and classes. The opening of each new building pushes back the barriers and gives actual entrance into circles that before could be claimed by faith alone. This fact is particularly patent in the fresh experiences with the seven hostels erected and opened during the year in the Japanese government student strongholds. Each one is at once a social magnet to the indifferent, a shelter to men hard pressed by temptations and a fortress from which may be directed concerted attacks upon the forces of evil and unbelief. Branches have been organized in Seoul and Shanghai for Japanese. The latter has been described as the liveliest organization among the 7,000 Japanese in that port. A beginning and real progress has been made among Japanese railway men in Korea and Manchuria, the companies operating these 1,500 miles of American-equipped lines co-operating financially. A promising work has been launched in Canton, the largest city of the heathen world. Chentu in westernmost China, has effected a provisional organization; and steps have been taken to supplement the Settlement branch in Foochow by one within the Walled City. A pioneer physical director has been sent to China and another to India. The first secretary is now set apart for Latin American students in the person of the associate secretary at Buenos Aires, the seat of the national university of Argentina, with 3,000 students. Bangalore initiated a boys' department, composed in part of Mohammedans. A distinct departure in athletics occurred in Allahabad, where a Mohammedan loaned a field and a Hindu furnished suits for the team. New college associations have been organized in Ceylon and China and the equivalent of one in a newly created student department of the Sao Paulo Association. Since the last report, a strong independent Protestant club in Montevideo has become a Young Men's Christian Association and a general secretary has been assigned to that Uruguayan capital of 300,000 population. Porto Alegre, Brazil, now has the leadership of a secretary maintained by the Foreign Department; and in Buenos Aires, a secretary under appointment for Santiago, Chile, is engaged in language study and final preparation.

In making possible these extensions, and in the erection of new buildings, the Association constituencies on the foreign field have contributed an increasing share. At the dedication of the Seoul building on land provided by local resources a further large sum was raised for endowment purposes. Shanghai, within two years after giving \$50,000 for a Chinese building pledged another \$40,000 in three weeks for an athletic field and the site of a future boys' building. Buenos Aires, Shanghai, Calcutta and Mexico City now provide for current expenses from two to five and a half times as much as they receive from the Foreign Department.

Parallel with the material and institutional growth has been an even more pronounced increase in the spiritual fruitfulness of the foreign Associations. The evening schools of the Japanese city Associations are uniformly productive of inquirers and baptisms. Twenty-one government students united with churches in Osaka, chiefly the result of Association influence through Bible classes. The promotion of Bible study under the difficult Latin American conditions has reached the point of demonstrated feasibility

in Buenos Aires and Rio. The former Association has been moved during the year by a spiritual awakening and the transforming of many lives. The outstanding encouragement of the year in North China was the clear conversion and bold confession of Mr. Chang Po Ling, a leading educator and member of the provincial board of education. In Seoul, sixty-five men and boys declared their desire and purpose to be Christians. Both the College and European branches in Calcutta were refreshed by evangelistic missions, and the Boys' branch saw its first Hindu member baptized. Soldiers in the Allahabad Association camp and students in the five Indian summer conferences were found responsive to the claims of Christ. South India and Ceylon, under the ministry of Messrs. Eddy and Harte, record hundreds of decisions, including some scores of Hindus and Mohammedans. From the field of the student Associations of China, 249 have united with the Church, and many have given themselves to the work of the Christian ministry. The summer conferences of Japan, China and India trained over 1,000 students for more efficient Christian service in their colleges and laid chief emphasis upon Bible study, evangelism and recruiting the leadership of the church.

The achievements among the Chinese and Korean students in Tokio have richly rewarded the thorough-going program carried on among them for the past three years. The constituency now includes more than 5,000 long-term Chinese students and 700 Korean students. A staff numbering more than twenty, under the direction of the Foreign Department, are addressing themselves to this rare Christian opportunity, including missionaries furnished by several societies, native and foreign secretaries and teachers. As many as 360 different students, representing every province in China, were in educational classes in a single term the past year. Two large evangelistic Bible classes are conducted at the two most important centers in Tokio and small groups in the homes of the secretaries and missionaries; one of the latter, enrolling sixty members, yielded sixteen accessions to the Student Church. This large body of organized Christians, authorized by the Shanghai Centenary Conference and under the general supervision of an interdenominational committee created by it, now numbers two per cent of the Chinese students in Tokyo, and additional baptisms are of weekly occurrence. Sixty of the Korean students in Tokyo are baptized Christians; and the senior secretary with them states that fully 100 will unite with the Church on their return home.

The foreign receipts for 1908 advanced \$10,278 over the preceding year in the face of prevailing financial depression. Public acknowledgment is here due the consecrated givers of large and small means who, in making this possible, were impelled by the conviction that the signs of God's purposes are determinative in the realm of stewardship and that present day events in the Kingdom offer no place for halting or retrenchment. The list of Associations increasing their gifts last year in sums ranging from \$500 to \$3,000 each, includes Toronto; Worcester, Mass.; Plainfield, N. J.; Lynchburg, Va.; Erie, Pa.; Lansing, Mich.; Cedar Rapids, Ia.; Duluth, Minn.; Colorado Springs; Denver; Los Angeles; Seattle; Spokane and Walla Walla, Wash.

The following notes with regard to the Militia Camp Work are representative of this work generally:

The commandant of the U. S. Maneuver Camp—Camp Emmett Crawford, Wyoming—gave the work this endorsement in his official report:

"The existence and maintenance of the Young Men's Christian Association at Camp Emmett Crawford contributed more than can be expressed to the comfort and contentment of the enlisted men there present. The tent afforded the only place on the grounds where the men could freely assemble in any numbers for wholesome recreation. Chaplain Ossewaarde's indefatigable zeal in this direction is to be especially commended."

The Washington secretary writes: "The enthusiastic endorsement of officers of all grades surprised us; they gave us all the law allowed. We had the best location on the grounds."

\*Reported by Tennessee Committee.

At Atascadero, Cal., joint maneuvers were held by the U. S. troops of the department of California and the State troops. Sixty writing spaces were provided but were not nearly enough; 28,500 sheets of writing paper were given out; 2,500 letters and cards written and posted in one day was not unusual; 1,036 cards and 700 letters is the record for 3¼ hours one evening. On several evenings when counts were made a thousand men were in and about the Association tents at one time. Six historical lectures, four band concerts, illustrated stories and sermons were attended by an average of 600 men. One evening toward the close of the encampment and after the National Guard had left it was observed that nearly 50 men were writing, the reading tent was crowded, 46 men were playing games, a large group was gathered around the organ singing religious songs, a crowd of over 200 was listening to a band concert and still another group was standing about a big camp fire.—*From Secretary's Report*

The absolute need for a better equipment for work at the Aldershot Militia Camp (Maritime Provinces) among the 4,000 men who annually drill there has been keenly felt and a building is being planned to cost about \$2,000.

**THE ASSOCIATION OF EMPLOYED OFFICERS  
OF THE  
YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF NORTH AMERICA  
AND THE EXECUTIVE COMMITTEES OF THE  
AFFILIATED CONFERENCES**

The thirty-fifth Conference of the Association of Employed Officers, with the Affiliated Conferences, convened at Omaha, Nebraska, June 1, to 6, 1909. The general theme of the Conference was "The Present Day Objective and Relations of the Young Men's Christian Association."

Representative commissions presented carefully prepared reports on "The Present Day Objective and Relations of the Association to the Young Men and Boys in the Churches,"—"To High School Boys"—"To Young Men and Boys of Foreign Parentage"—and "To Young Men and Boys in and from the Country." A special committee also presented a report on "The Enlistment and Training of Employed Officers."

The Conference was signalized by the amount of time devoted to open discussion of these themes, by strong inspirational addresses by Bishop William F. McDowell, Dean Edward I. Bosworth, J. Campbell White and Dr. Clarence A. Barbour, and by programs of special interest which were prepared and conducted by nine affiliated groups.

Notwithstanding the far west location of the Conference the attendance was large and representative, classified as follows:

Alabama, 4; Arkansas, 2; California, 15; Canada, 14; Canal Zone, 2; Colorado, 23; Connecticut, 2; District of Columbia, 3; Florida, 2; Georgia, 3; Idaho, 2; Illinois, 45; Indiana, 12; Iowa, 29; Kansas, 18; Kentucky, 6; Maine, 4; Maryland, 3; Massachusetts, 10; Mexico, 2; Michigan, 12; Minnesota, 12; Mississippi, 1; Missouri, 26; Montana, 1; Nebraska, 27; New Jersey, 5; New Mexico, 1; New York, 55; North Carolina, 3; North Dakota, 3; Ohio, 12; Oklahoma, 4; Oregon, 6; Pennsylvania, 25; South Carolina, 1; South Dakota, 2; Tennessee, 3; Texas, 12; Utah, 5; Virginia, 3; Washington, 12; West Virginia, 2; Wisconsin, 6; Miscellaneous, 3; *Foreign*—China, 1; Hawaii, 1; Japan, 1; South America, 1. Total, 447

The student enrolment the past year has been 118, as contrasted with 115 last year, and 103 the year previous. Graduate students 2, senior class 25, middle class 33, junior class 48, junior preparatory class 11.

The students at Springfield come from all parts of the world. In addition to the *United States and Canada*, young men are enrolled from *England, Ireland, France, Holland, New Zealand, Australia, Korea and Japan*.

The Training School grounds are within the city of Springfield, and consist of 34 acres on the west side of Massasoit Lake, and Gerrish Grove, which contains 25 acres on the east shore of Massasoit Lake. These grounds with the lake furnish unrivalled opportunities for athletic and aquatic sports. The central building erected in 1896 at a cost of \$45,000, provides for class rooms, offices, library, chapel and 60 dormitories. The gymnasium, Woods Hall and the boat house furnish excellent equipment for the work of the institution. The Training School now has a property valued at \$200,000, and an endowment of \$100,000.

Special plans are being made to observe the anniversary exercises in June, 1910, when a large number of the alumni and friends of the School are expected to be present.

The Training School offers two courses of study each covering three years. Graduates of other institutions will be given advanced standing.

The secretarial course, which is based upon the study of man, leads to the degrees of Bachelor and Master of Humanics (B. H. and M. H.). These degrees stand for preparation for service.

The physical course, which prepares for the physical directorship in the Young Men's Christian Association and other institutions, leads to the degrees of Bachelor and Master of Physical Education (B. P. E. and M. P. E.).

The past year marked additions have been made in the normal work of the institution. The Sunday School Athletic League of Springfield, which enrolls over 600 boys from fifteen Sunday-schools, is largely under the direction of students at the School in its Bible class work, athletics, coaching, study of hygiene, etc. The local Associations of Springfield, Holyoke, and Westfield, the Boys' Club, the playgrounds and other activities furnish large opportunities for normal work.

The student body is organized into a Young Men's Christian Association with sixteen departments. This organization last year handled the religious work, the athletics, the social life, the dining hall, and many other activities of the institution.

The past year additions have been made to the courses in hygiene, religious education, philosophy, college and playground administration, physiological physics and chemistry, nature study, music, the library and other departments.

### THE INSTITUTE AND TRAINING SCHOOL OF YOUNG MEN'S CHRISTIAN ASSOCIATIONS

Complete courses in Chicago, Illinois.

Summer Schools at Lake Geneva, Wisconsin.

Calendar for 1909.

Lake Geneva Summer Schools begin	July 1,—end July 29.
Annual Meeting of the Corporation	July 29.
Annual Commencement	July 29.
Fall Term (Chicago) begins	October 6,—ends December 29.

The recruiting, the preparation and the professional advancement of its employed officers is an important problem in the Young Men's Christian Association Movement. A Conference of fifty-seven representative Association leaders of the Central West convened to consider this problem passed the following resolution:

*"Resolved, That it is the sense of this Conference that professional training in schools for that purpose be recommended as most desirable for those who are secured for Association leadership, such training to compare in character and to be not less thorough than that required for entrance into other professions."*

The Institute and Training School offers a two-year course for secretarial students and a three-year course for physical directors. Each year consists of four terms, the summer term being given at Lake Geneva, Wisconsin, where courses are offered for both present and prospective employed Association Officers. College graduates, especially those who have had city Association experience, may complete the course in from one to two years, according to proficiency. Students may begin their professional training in the summer school.

The courses of study include, the history, principles, organization and methods of Young Men's Christian Associations; the administration of the physical, educational, boys' and religious work departments; the history of Christianity; studies in psychology, sociology, philanthropy and English Bible as related to Association work. A distinct course is provided for physical directors covering the field of theory and practice in physical training. The location of the school in the heart of a great city and in the midst of metropolitan Association activities gives unexcelled opportunity for original investigation and participation in the actual work of the Association.

The expenses, including tuition, room, board, etc., range from \$250 to \$350 per year. For catalogue and all information address, Frank H. Burt, President, 824 Association Building, Chicago, Illinois.

## THE PHYSICAL DIRECTORS' SOCIETY

### OF THE

### YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF NORTH AMERICA

The Physical Directors' Society of the Young Men's Christian Associations of North America was organized at Lakewood, N. Y., June, 1903.

The object of the organization is the promotion of physical training in general, and its relation to the Young Men's Christian Association in particular. Membership consists of two classes, active and associate.

The active are Young Men's Christian Association physical directors and assistant physical directors; associates are any Young Men's Christian Association members who may be interested in physical training. The annual membership is two dollars, including the monthly magazine "Physical Training."

The present officers of the society are: George J. Fisher, M.D., President; J. Y. Cameron, Vice-President; C. E. Beckett, Secretary-Treasurer.

The above with M. I. Foss, G. B. Affleck and Henry F. Kallenberg, M. D., constitute the Executive Committee.

The society is a valuable organization to the physical work in that

I. It represents unity. Things are being accomplished which could not be done by isolated effort, viz:

(a) Publication of Physical Training.

(b) Annual Conferences, where the discussion of important themes has provided mental stimulus and promoted advanced propagandas of work.

(c) Enriched the literature of physical training and brought about a standardization of method—bibliography of physical training, uniform anthropometric blanks, nomenclature, graded elementary exercises, etc.

II. It represents fraternity. It brings the various physical directors, older and younger, mature and immature, experienced and inexperienced in contact with each other in a receptive and serviceable way. Friendships are made and strengthened, sympathetic relations are established.

Six annual conferences have been held: St. Louis, Mo., 1904; Niagara Falls, N. Y., 1905; Indianapolis, Ind., 1906; Washington, November, 1907; Ocean City, June, 1908; Omaha, Neb., June, 1909.

These conferences are held annually and in conjunction with either the International convention or the Employed Officers' conference.

Standing committees on Anthropometry, Graded Gymnastics, Religious Organization, Research, Social Service, Bibliography, Sexual Hygiene, etc., promote activity in the study of these subjects throughout the year and result in valuable original contributions.

## THE Y. M. C. A. ATHLETIC LEAGUE

In the General Secretaries' Conference, held at Orange, N. J., in 1889, there was extended discussion regarding the advantages of the formation of an Athletic League among the associations. Upon vote, a committee was appointed to consider the matter, and, if it seemed wise, to proceed at once with the organization of such a league. The committee consisted of Messrs. James McConaughy, George W. Ehler, and George A. Sanford. It became evident very soon that the action contemplated was beyond the function of the Secretaries' Conference and belonged to the International Convention and the International Committee. Accordingly the matter was referred to the International Committee and the sub-committee on physical work was instructed to proceed as rapidly as possible with the preparation of a scheme that might be useful in working out this problem.

The result was a plan of athletics which should build men all-round rather than provide competition in individual events, and a system of marking by which an absolute and not a relative rank or mark could be given, thus giving to athletic games the character of an examination rather than of a contest.

The International Conventions of 1889 and 1891 discussed favorably the formation of an Athletic League. In 1892, the State Committee of Illinois requested the International Committee to take steps in this direction, and the International Convention of 1893 instructed the committee to present its plan to the next convention.

The Physical Directors' Conference, held in Springfield, Mass., in 1894, requested the International Convention to perfect the organization of an Athletic League at as early a date as possible.

After that the matter was carried forward rapidly and reached its first definite step October 3, 1895, in the appointment of a committee which, under the direction of the International Committee, should govern the League. This committee held its first meeting on the following day and has since continued careful oversight of the League.

The League now enrolls in its membership 180 associations and over 3,000 athletes taking part in competitive games.

*Spirit of the League.* The League endeavors to foster clean sport between gentlemen. The following statements express the spirit to be sought and maintained in such sport. It is the privilege and duty of every committee and person connected with the League to embody these principles in his own actions and to earnestly advocate them before others.

(1) The rules of games are to be regarded as mutual agreements, the spirit or letter of which one should no sooner try to evade or break than one would any other agreement between gentlemen. The stealing of advantage in sport is to be regarded in the same way as stealing of any other kind.

(2) Visiting teams are the honored guests of the home team, and all their mutual relationships are to be governed by the spirit which is understood to guide in such relationships.

(3) No action is to be done nor course of conduct pursued which would seem ungentlemanly or dishonorable if known to one's opponents or the public.

(4) No advantages are to be sought over others except those in which the game is understood to show superiority.

(5) Advantage should not be taken of the laxity of officials in interpreting and enforcing rules.

(6) Officers and opponents are to be regarded and treated as honest in intention. When opponents are evidently not gentlemen, and officers manifestly dishonest or incompetent, future relationships with them may be avoided.

(7) Decisions of officials are to be abided by, even when they seem unfair.

(8) Ungentlemanly or unfair means are not to be used even when they are used by opponents.

(9) Good points in others should be appreciated and suitable recognition given.

The League is allied with other athletic organizations, namely, the Amateur Athletic Union and the Canadian Y. M. C. A. Athletic League. By the terms of alliance these bodies recognize the Athletic League registrations and sanctions, and the League has representation on the governing bodies of these organizations, and consequently a voice in the framing of their laws.

The membership and annual dues are \$5.00. Individual athletic registration costs 25 cents per year. Sanctions for athletic meets, basket ball and other games are issued upon application without cost to associations which are members of the League.

Every association in the League is entitled to one copy of the Hand Book, free, additional copies costing 10 cents each.

## ACCIDENT INSURANCE

**D**O YOU KNOW that \$25 a year buys an Accident Policy for \$5,000 with \$25 weekly indemnity (and Double those amounts for "accidents of travel") covering all Accidents to you, also insuring your beneficiary against "accidents of travel" for \$5,000; and that this policy pays Annual Dividends in increased insurance, which are also doubled for "accidents of travel, burning buildings, elevators," as specified in contract? Many other features.

**\$5,000 to \$15,000 is a lot of insurance for \$25.**

I have sold hundreds of these accident policies to Y. M. C. A. and business men—why not one to you?

You can't afford to go anywhere without an Accident policy these days.

Larger or smaller contracts at proportionate cost.

## Four Distinct Faber Folding Organs

### HIGHEST AWARD

INTERNATIONAL  
EXHIBITION  
OF MUSICAL  
INSTRUMENTS

Rotterdam, Holland  
May 19 to June 1, '09

#### CHAPMAN-ALEXANDER PARTY Evangelistic Campaign 1909

MELBOURNE, AUSTRALIA, May 7, 1909

MR. HOMO FABER, 67 Flournoy St., Chicago, Ill., U. S. A.

MY DEAR MR. FABER:— Before leaving Chicago for the World Tour with the Chapman-Alexander Evangelistic Party,

Mr. Asher made me a present of one of your folding organs. I wish to say that I am delighted with it. I am familiar with all the folding organs in America, and carried one with me for four years, but I feel free to say that your organ is the best of all for several reasons, namely, that it is lighter in weight, more compact, and of better tone than any other I know about.

When one must carry an organ, weight counts. Then when you are compelled to take the organ with you on street cars and trains, compactness is very important.

On our way to Vancouver, B. C., we sang on the train and at depots. Mr. Robert Harkness used the organ. Mr. Charles M. Alexander conducted the singing. They both pronounced the organ as the greatest they ever have seen. When we were through singing Mr. Asher, who carries the organ for me, folded it up and put it under the car seat.

I used the organ in saloon meetings at Honolulu, T. H., and Suva, Fiji. The missionaries were delighted with it. It was used on the Makura while we were crossing the Pacific Ocean. Since our arrival in Australia we have used it in the penitentiary. Every one who sees it pronounces it a wonder.

In addition to the above, Mr. Asher uses it for a pulpit to stand on, when open, in our barroom meetings.

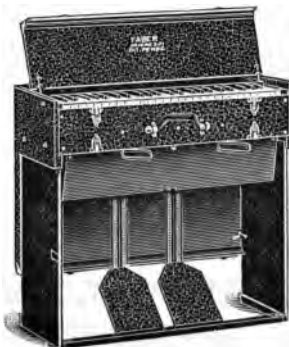

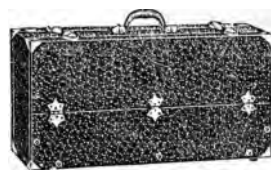

If it were not for your organ I would have had to go on this trip without one, because Mr. Asher refused to carry the old one on account of its being so heavy. This is a decided objection to all other folding organs.

Respectfully yours, VIRGINIA ASHER

PROVIDENCE, R. I.

Manufacturers of the ATWATER NEWSPAPER FILES  
and FILE RACKS for READING ROOMS

**BUSINESS ESTABLISHED IN 1863**

THIS illustration from photograph shows a Three-story File Rack with six Files on each side of the first story, and six Files on each side of the second story uprights, supported by brass hooks. The third story is the index, which is preferred by some.

Twelve Files of any three consecutive lengths between bands can go on the first story, and twelve of any other three consecutive lengths smaller can go on second story. The lengths between bands are 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, and 40 inches.

This rack occupies floor room only about one foot wide by three feet in length—a great advantage in economy of room.

It weighs only about twenty pounds, and is very portable and is usually sent by express in a package, each piece protected, and can be readily set up at its destination. Illustrated price list sent free, both of files and racks.

The size most frequently ordered is for Files eighteen to twenty-eight inches between bands. The racks are usually made of white wood, finished nicely with two coats of either orange or mahogany colored shellac. If oak Racks are ordered they will cost one dollar extra.

The Atwater Files and Racks are now, and long have been, the standard article in general use.

## THE JOHNSTON LIBRARY MAGAZINE HOLDER

### THE HOLDER THAT HOLDS

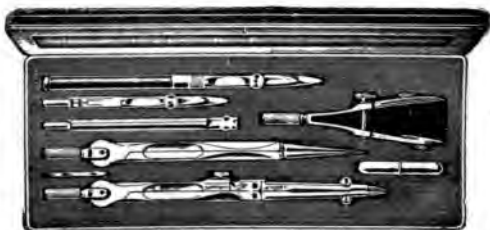

with improved round, steel spring back, for holding the magazine securely. The holder and all metal parts are covered with U. S. Drab Duck, leaving nothing exposed to SCRATCH the desks.

The SPRINGS used in these holders are made from a specially tempered steel in order to secure the *exact strength* necessary for holding the contents firmly without straining the binding.

Sample for examination may be had upon postal request. Postage paid both ways.
